This section sets forth the Local Exchange Services made available by Michigan Bell Telephone Company to Carrier for resale to its customers. General terms, conditions, service and feature descriptions as described in Tariff M.P.S.C. NO. 20R, Part 4 and herein apply where appropriate, unless otherwise specified in this Part. The application thereof is to Carrier with regard to service ordering, repair requests or billing responsibility and to Carrier's Customer when designating service location, use, activation, configuration, or sizing.

As noted in this Section, the rates below apply for services provided on a month to month basis.

INTEGRATED SERVICES DIGITAL NETWORK - DATA USAGE

General

ISDN Data Usage applies to the following ISDN Services: ISDN Direct, ISDN Prime and ISDN Centrex lines for Circuit Switched Data calls.

ISDN Data Usage is based on the duration of the data call. Each Data call is rated based on an initial period and additional period(s). The initial period is ten minutes or any fraction thereof. Additional minutes of use over the ten minute initial period are rated based on five minute increments or fraction thereof.

Circuit Switched Data Schedule - Each ISDN circuit Switched Data call which originates and terminates within the customer's local calling area will be rated based on the Usage Schedule shown below:

Following rates apply when Ameritech provides OS/DA

	<u>Business</u>	<u>Residence</u>	(C)
